Professional Summary

Detail-oriented Computer Science student with a strong understanding of manual testing concepts including SDLC, STLC, test case design, and bug lifecycle. Hands-on experience in testing web applications, APIs, and database systems by creating test scenarios, executing test cases, and identifying defects. Skilled in SQL for data validation and familiar with tools like Postman and Jira. Focused on improving software quality through structured testing and analytical problem-solving.

Education

Vellore Institute Of Technology, Bachelor's in Computer Science

- CGPA: 8.36/10

Technical Skills

Programming: Python, SQL

Testing Methodologies: SDLC, STLC, Test Case Design, Bug Lifecycle

Tools: Jira, Postman

Databases: Mysql, SQLite

Projects

User Registration Login Testing

- Created and executed test scenarios for user authentication system focusing on input validation and error handling
- Performed negative testing for cases like empty fields, invalid credentials, and duplicate registrations
- Identified defects related to incorrect validation logic and improper error messages
- Performed functional and negative testing on authentication system to validate input handling and identify validation defects.

Library Management System Testing

- Designed and executed test cases to validate book issue and return workflows along with user and transaction management
- Performed functional and negative testing to identify issues such as invalid transactions, duplicate records, and incorrect availability status
- Used SQL queries to verify data consistency across users, books, and transaction tables
- Designed and executed test cases to validate book issue/return workflows and ensured data consistency using SQL queries.

API & Database Data Validation Testing

- Performed API testing using Postman by validating status codes, response structure, and data accuracy
- Verified data consistency between API responses and database records using SQL queries
- Tested edge cases such as missing fields, invalid data, and duplicate records
- Tested APIs using Postman and verified data consistency with database using SQL queries.

Achievements

- Participated and cleared Round 1 (Coding Round) in Amazon HackOn Season 5
- Selected and participated in Level 1: E-Commerce & Tech Quiz of Flipkart GRID 6.0
- Godrej Properties Limited SUMMERSAULT Challenge 2025 - real-world business problems. Finalist, recognized for applying data-driven product thinking to solve

Leadership & Activities

Gujarati Cultural Club (Club Coordinator)

Oct 2022 - Aug 2023

- Managed events with 200+ attendees, overseeing all digital promotion and logistics.
- Fostered cross-cultural connections through innovative programming and campus outreach.

CRB Foundation(Volunteer work)

Aug 2023

- Been a part of making website for NGO (CRB Foundation) based in Bhopal.
